

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	11 September 2026
Team ID	Individual Project
Project Name	ServiceNow Based Employee Laptop Request Application
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Employee Laptop Request	Submit laptop request through the ServiceNow application; enter requester/employee details, laptop type, required date and reason.
FR-2	Manager Request Approval	Manager reviews the submitted laptop request and can approve or reject the request.
FR-3	IT Support Request Processing	IT team views approved laptop requests, processes them, and updates laptop assignment and completion details.
FR-4	Employee Request Tracking & Notifications	Employee can view the current request status and receive notifications when the request status or approval changes.

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

NFR No.	Non-Functional Requirement	Description
NFR-1	Usability	The application should be simple and easy for employees, managers and IT users to use.
NFR-2	Security	Role-based access should ensure users can access only permitted laptop request functions and records.
NFR-3	Reliability	Requests, approvals and status updates should be processed consistently and stored correctly.
NFR-4	Performance	The application should process requests and display records with minimal delay.
NFR-5	Availability	The application should be available to authorized users when required.
NFR-6	Scalability	The application should support an increasing number of employees and laptop requests.
